Skills

- **Languages**: C, C++, Java, Python
- **Frameworks**: Scikit-Learn, Express.js
- **Tools/Platforms**: MySQL, Salesforce, Git, GitHub, VS Code, Jupyter Notebook
- **Soft Skills**: Leadership, Problem solving, Team Work, Adaptability, Quick Learner

Projects

E-Canteen — Smart Canteen Ordering: | **GitHub** | **Live** Jul' 25

- Developed a Flutter-based pre-ordering system with **dynamic time-slot booking** to streamline canteen operations, reduce customer waiting time, and provide a seamless and efficient food ordering experience.
- Designed a **statistical recommendation** system using **order history** to suggest coupons and promotional offers, helping the canteen attract new customers and boost sales of low-demand items.
- Implemented **Git** and **GitHub** for version control and deployed the backend on Render, ensured **efficient code** management, collaboration, and reliable application deployment.

Tech Used: Flutter, Dart, Node.js, Express.js, MongoDB Atlas, Git, GitHub, Render

EDA & Sales Prediction on Adidas Monthly Sales Data: | **GitHub** | **Live** Apr' 25

- Developed **Linear Regression, Random Forest**, and **Decision Tree** models to predict total sales, units sold, and sales methods, enabling data-driven sales forecasting and business decision-making.
- Preprocessed and analyzed over **10,000 sales** records using Pandas and NumPy, improving data quality through feature engineering, encoding, and data normalization.
- Evaluated **model performance** using regression and **classification metrics**, visualized insights with Matplotlib and Seaborn, and strengthened practical skills in machine learning model development and evaluation.

Tech Used: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Training

Mobile App Development Using Flutter — Cipher Schools | **Link** Jun' 25 – Jul' 25

- Learned and developed cross-platform mobile applications using Flutter, gaining strong hands-on experience in UI development, state management, and API integration.
- Applied Git and GitHub for version control, including repository management, branch creation, merging, and resolving conflicts, while collaborating with team members during project development.

Certificates

- Git & GitHub | Cipher Schools | **Link** Jul' 25
- Cloud Computing | NPTEL IIT Kharagpur | **Link** Apr' 25
- Data Structures and Algorithms | LPU | **Link** Dec' 24
- Introduction to Hardware and Operating Systems | IBM (Coursera) | **Link** Sep' 24

Achievements

- Solved 400+ coding problems across **Lpu Colab**, **LeetCode** & **GFG** sharpening problem-solving skills. Jun' 25
- Participated in the **Odoo × CGC Mohali Hackathon** contributing to the development of a civic-tech solution. Jun' 25
- Earned a **5 Star** rating in **C++** and a **2 Star** rating in **Python** on HackerRank. Mar' 25

Education

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.63*** *Aug' 23 - Present*

Govt. Senior Secondary School (Multipurpose) Ludhiana, Punjab
Intermediate; ***Percentage: 86%*** *Apr' 22 – Mar' 23*

S.G.D Grammar Senior Secondary School Dhandari Kalan, Punjab
Matriculation; ***Percentage: 100%*** *Apr' 20 – Mar' 21*
